Applicant CONTIPI LTD.	

1. This International Searching Authority

- (i) considers that there are 2 (number of) inventions claimed in the international application covered by the claims indicated on an extra sheet:

- (ii) therefore considers that **the international application does not comply with the requirements of unity of invention** (Rules 13.1, 13.2 and 13.3) for the reasons indicated on an extra sheet:

- (iii) ☒ has carried out a partial international search (see Annex) ☐ will establish the international search report on those parts of the international application which relate to the invention first mentioned in claims Nos.:

see extra sheet

- (iv) will establish the international search report on the other parts of the international application only if, and to the extent to which, additional fees are paid.

2. Consequently, the applicant is hereby **invited to pay**, within the time limit indicated above, the amount indicated below:

3. The applicant is informed that, according to Rule 40.2(c), **the payment of any additional fee may be made under protest**, i.e., a reasoned statement to the effect that the international application complies with the requirement of unity of invention or that the amount of the required additional fee is excessive, where applicable, subject to the payment of a protest fee.

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-45

An apparatus for insertion into a human vagina for treating urinary incontinence, comprising a supporting section.

2. claims: 46, 47

A method of packaging an urinary incontinence device.

The present application lacks unity within the meaning of Rule 13.2 of the PCT for the following reasons:

Document WO-A-2008010214 cited in the present search report discloses an apparatus for insertion into a human vagina for treating urinary incontinence, comprising a supporting section and an anchoring section. Over this prior art the special technical features (in the meaning of PCT Rule 13.2) claimed in the application are:

Subject 1 (claims 1-18, 19-41, 42-43, 44-45): None.

Subject 2 (claims 46, 47): A method of packaging an urinary incontinence device.

No same or corresponding potential special technical feature can be found between any two of the above mentioned subjects. There is therefore no technical relationship involving same or corresponding potential special technical features between these two subjects. The inventions defined in the above mentioned subjects are thus not considered linked by a common inventive concept.
